

# Right Price Bathrooms

# Real value, style and long lasting quality

Dear Bathroom Buyer

## **Choosing your new bathroom is a really big thing.**

A lot of householders change their bathrooms only twice in their lives. That's why it's so important to make the right choices.

## **This brochure is here to make your choice easier.**

With a huge selection of current and classic styles, you can express your own individual style in your bathroom.

## **You get a better bathroom at a better price.**

The **Real Deal** is what you get with this brochure. This means that you get '**Real Quality**' at prices that offer '**Real Value**'. Quality really matters in your bathroom and whilst you may find many other offers of good prices in the search for your bathroom, these products may not offer you the same quality and features that you will find in this brochure. All products in this brochure are from trusted brands that give you the beautifully finished bathroom you want at a price you will love. Please ask in store for expert advice and details on any of the products featured in this brochure.

Hopefully choosing your new bathroom will be a great experience for you!

# Could tall sanitaryware benefit you?

In Europe the height of an average male has increased by 15cm in the past 130 years. The average knee height has increased by an estimated 6cm, therefore Britton have created a range that's 6cm taller than average sanitaryware.

Higher Sanitaryware not only helps taller people, but also if you're older or have any other specific needs. It's far easier getting on and off a loo that's 48cm high rather than one that's 42cm. Tall Sanitaryware can be mixed with standard height sanitaryware to suit your needs. See pages 10-15 for information.

### Fully Tileable Surface

The surface of Aqua4ma is suitable for all types of tiles to ensure the shower can be finished to the highest specification.

### Easy to Choose

Step 1 - choose a Floor4ma shower base that suits your enclosure or wetroom size.

Step 2 - Decide how much of your wall and floor you wish to be protected and choose the Aqua4ma wall & floor panels to suit this size.

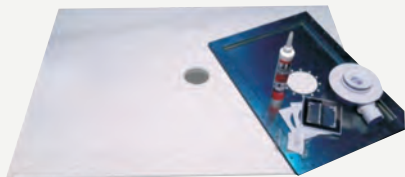

### Easy & Quick to Install

Requiring only basic DIY skills to fit, Aqua4ma is easy and quick to install.

Watertight joins between panels and trays are created using a "solvent weld" process. The solvent is applied in the join, which physically welds the pieces together, bonding them so they become one.

## Four simple steps to a totally watertight wetroom

1. The Metal under tray is installed into the floor.
2. The Top4ma shower base is fixed into position to form a base for the shower area.
3. Wall & floor panels are installed around the shower base.  
Watertight joints between panels are created using the Solvent Weld, which bonds panels and shower base together with ease.
4. The surface of the Aqua4ma base and the wall and floor panels are fully tileable, to ensure your new bathroom is finished to the highest standard.

## Looking for a stronger, greener bath?

### Stronger

Cleargreen baths are reinforced, giving you a sturdier, stronger bath. You feel secure in a Cleargreen bath knowing all the re-enforcement under the bath can stand up to 2.3 tonnes.

- Recycled composite baseboard - far stronger than the chipboard used in many other bath brands
- Reinforced Lucite acrylic
- Microsphere strengthening compound applied all over the underside of the bath and rim
- Metal reinforcement in rim

### Greener

Cleargreen baths are made from 30% recycled material.

Retains heat for 30% longer than a standard acrylic bath, so you can bathe for longer without topping up the hot water.

The picture above shows a cut through on the rim of a Cleargreen bath. You can see the Green coloured microsphere strengthening compound and the metal reinforcement in the rim.

## Natural Stone Baths “Worth their weight in stone”

## Why would you invest in a Natural Stone Bath?

**Strong** – The strength in Natural Stone allows the creation of baths with thin walls that are truly beautiful.

**Beautiful** – Natural Stone looks exceptional. It allows for a much sharper more distinctive look which gives a premium finish to a bathroom.

Each bath is hand polished for over 10 hours to achieve a super smooth finish. If you scratch your Natural Stone Bath you can simply polish it out!

**Spacious** – Thinner walls mean the internal bathing space of a natural stone bath is far more spacious than that of the same sized acrylic or steel bath. A 1600mm Natural Stone Bath can give as much bathing space as a standard 1700mm bath. This gives you a greater possibility to install a freestanding bath if you have a smaller sized bathroom.

Natural Stone baths are also made so they sit on the floor and don't require feet under the bath. This makes natural stone baths around 12cm deeper than acrylic or steel baths which require leg sets. So with no increase in the overall height, you get a much deeper bath for added luxury.

**Formoso**

<b>Formoso</b>	1690 x 555h x 800mm	£2,499.00
<b>Formoso Piccolo</b>	1500 x 555h x 750mm	£2,099.00

No tap holes - suitable for floor standing or wall hung taps only.  
No overflow.

<b>Sontuoso</b>	1690 x 580h x 700mm	£2,499.00
-----------------	---------------------	-----------

No tap holes - suitable for floor standing or wall hung taps only.  
No overflow.

*Strength in the stone material means these baths have beautifully thin walls. So you get maximised bathing space, whilst the bath fits in a relatively small area.*

**Sontuoso**

<b>Vicenza</b>	1790 x 555h x 750mm	£2,499.00
<b>Vicenza Piccolo</b>	1600 x 555h x 750mm	£2,199.00

No tap holes - suitable for floor standing or wall hung taps only.  
No overflow.

*A great solution for small spaces. - The 1600mm bath above gives you the same bathing space as a standard 1700mm acrylic bath.*

## Why is bathroom furniture becoming so popular?

Good furniture adds style to any bathroom, but more importantly it gives you essential storage, leaving your bathroom tidy and clutter-free.

These modern wall hung vanity units from Vitra will give your bathroom the modern European look that is becoming increasingly popular in the UK.

## You can have fabulous quality furniture in your bathroom at a price you'll love

Vitra S50 & S20 furniture have many superb features and a finish that you would expect to find on furniture with a higher price tag.

## Maximum Style & Quality - Minimal Cost

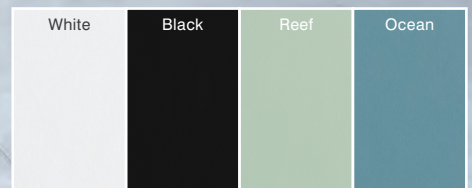

For little more than the cost of a basin & pedestal you can have all the style and function of high gloss furniture. Aquacabinets enhances your bathroom with many high quality features.

- No handles for modern style
- 5 coats of paint for a high quality finish

# Perfect furniture solutions for the British bathroom at fantastic prices

Look: basin covers full 1200mm run, giving useful surface space

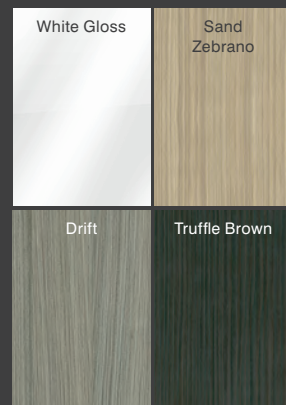

## Why this furniture is so good for British bathrooms

The average British Bathroom is just 2 meters by 1.7 meters. Furniture is a great idea if like most householders you are limited on space.

At 1200mm wide the furniture solutions shown on these two pages enable you to make the most of your space in style. The single piece slabtop basin adds a useful countertop combined with storage to create order and tidiness, which can otherwise be an issue in small spaces.

As you can see all of this can be achieved within a fantastically appealing price.

## Add Value Through Quality

Brassware can make or break your bathroom. With this in mind we only offer you high quality brassware in this brochure.

It is particularly important to consider the quality of your brassware. After all it is one of the only items in your bathroom that has working parts.

Don't risk choosing lower quality brassware. It could spoil the overall look of your bathroom, but more importantly cause you issues down the line, that may require difficult and expensive maintenance.

All Brassware is solid brass and offers

# Enjoy a temperature perfect shower with the push of a button

**Affordable Digital**

A digital shower gets your favourite temperature right every time.

No more messing with your shower controls in the cold. Just push the button and the controller lets you know when its ready for you to get in.

New model shown available early February 2014

## How does digital showering benefit you?

Digital showering has heralded a new generation of bathroom technology. Featuring a one touch control, lights indicate when your exact chosen temperature is reached. Imagine that - no more fussing with the controls to get temperature and flow rate right, just push the button and the processor does it all for you.

- Contemporary design
- Exact temperature every time
- Perfect water flow
- Safe water temperature for all the family
- One-touch control
- Easy, quick installation

At the heart of the Digital Shower is a shoe box sized digital processor that is easy to install and can be concealed up to 10 metres away from the shower. Choose a pumped or standard system dependent on your water system. Pumped systems have an integral booster pump and are recommended for use on gravity fed systems. Standard is suitable for use on mains fed systems and combined boilers.

## Digital Remote

You can turn your shower on without having to reach inside the shower. You can even choose to locate a wired remote switch in another room!

## Enhance your bathroom with little investment.

Most people look in the mirror every time they go in the bathroom, so although you may not have realised it before, it could be your most used purchase. These mirrors give you great value, finishing off your bathroom with a high quality look and room enhancing features.

## Features

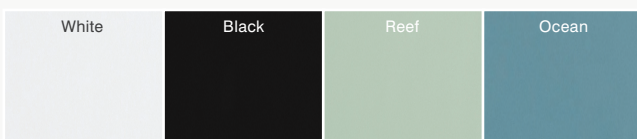

Add a demister pad for only £40. This clever device keeps the mirror from fogging up.

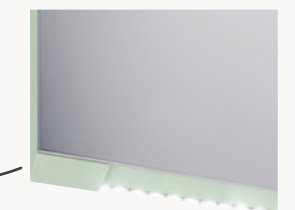

Lighting strips at the top and bottom give your bathroom a sophisticated look and properly illuminates the face, avoiding the shadows you get when lighting only from above.

### Four Finish Options

## Dual Energy Kits

Do you still want to warm your towels even when the central heating is turned off?

By adding a DEPACK electric element to your Redroom radiator you can convert it to dual energy. Control your radiator through your central heating system or using the DEPACK for a quick towel warming boost. Particularly useful in the summer.

## Enjoy the affordable luxury of underfloor heating

You can have a far better bathroom with little investment as these superior heating products are highly affordable.

Raychem underfloor heating gives an even distribution of heat around your body.

Wrap yourself in the luxurious warmth of a Raychem heated floor

Raychem underfloor heating offers the ultimate comfort as it provides an even temperature throughout the room. Heat rises upwards from the floor, through the area around your body, giving your body a feeling of natural warmth.

You can have a far better bathroom with little investment as these superior heating products are highly affordable. You can use as a primary heat source or in conjunction with radiators or towel warmers.

## Extra value through quality

Superior quality products will provide you with extra value over time.

Raychem products are tough and highly durable, giving you long lasting use. This is of the greatest importance with underfloor heating. As the wire is buried in the floor it can be costly if maintenance is required.

# What Size do I need?

Calculate the total floor area of your room in m<sup>2</sup>, and deduct the area covered by fittings (eg WC, bath, etc).

For T2 Quicknet mats select the first mat size smaller than this figure.

For Cera Pro loose wire simply select the correct size for that floor area.

For larger spaces two T2 Quicknet or two Cerapro products can be added together in one installation.

## T2 Quicknet Mats

These self adhesive mats have the underfloor heating wire pre-spaced out onto the mat. Mats can be rolled out over the desired area and wire can be detached from the mat to go around items such as the basin or WC.

### Many luxurious finish options

Nuance boards mimic the look and texture of natural stone and marble for a truly special look

See page x for all finish options.

### Postformed (curved) edges

Edges and corners are finished off with a rounded end. This looks great and eliminates the need for unsightly edging strips.

### Easy cleaning and maintenance

With no joins or grout, cleaning means no more than a simple wipe down.

### Almost invisible joins

Nuance gives you one single surface with almost invisible joins. There is no need for grouting and unlike other walling systems Nuance doesn't require unsightly finishing strips.

### Highly versatile

Nuance can be used on walls around the bathroom for waterproofing and decorative purposes.

- Shower enclosures
- Wetrooms
- Bath areas & as bath panels
- behind basins & WC's

### 100% waterproof

Panels are made from a patented compound that is totally impervious to water. This is superior to other similar products that have a wood core and can swell if the surface is compromised.

### Highly cost effective

Comparing the cost of fitting Nuance boards against tiles, Nuance usually comes out as the winner. Not only on overall cost of the product but also on fitting costs.

### Quick easy installation

Nuance panels can be cut and installed in a matter of hours. This saves you money and time as the fitting will cost you less compared to equal coverage of tiles.
